

Community Service Documentation Form

(2009-2010 school year)

Student Learning Endorsement: Cullman High School students that complete 100 hours of service will receive a service hour stamp on their diploma. The purpose of this service learning initiative is to reach out to our community and to instill a lifelong dedication to service.

Requirements: At least 50 % of the hours must be obtained from a registered non-profit organization. Cullman High School will not recognize hours completed with organizations that are managed or owned by the student's family. All hours must be documented on a Community Service Documentation Form. The completed form must be returned to the Guidance Office by the last school day in April 2010.
